The Firm has produced this Public Disclosure Document in line with the rules and requirements of MIFIDPRU 8, as applicable to SNI firms.

This Public Disclosure Document has been prepared based on the audited financials as at 31st March 2024, covering the financial period 1 Apr 2023- 31 Mar 2024.

2 Risk management objectives and policies

In line with the Firm’s business strategy, risk appetite and risk management framework the Firm identifies and further assesses key risks within the Firm’s Internal Capital and Risk Assessment (“ICARA”) process.

The Firm maintains a risk register, which includes risk assessment and rating methodologies in accordance with its risk appetite statement. Key risks are reported to the Partnership Board at each meeting.

2.1 Own funds requirements – MIFIDPRU 4

As an SNI firm without permissions for dealing as principle or holding client money or client assets, the Firm is subject to a Permanent Minimum Requirement of £75,000 .

The Firm calculates its own funds requirements based on the Fixed Overhead Requirement (“FOR”) calculation and is not subject to any K-factor requirements.

The Firm does not provide any client guarantees and therefore its entire liquidity requirement is driven by its expenses, as captured by the FOR.

As part of the ICARA, the Firm also maintains liquidity to satisfy its net wind-down costs and any additional liquidity requirements which the ICARA identified for supporting the ongoing business activities of the Firm.

4 Remuneration arrangements

The Firm has adopted a remuneration policy and procedures that comply with the requirements of chapter 19G of the FCA's Senior Management Arrangements, Systems and Controls Sourcebook ("SYSC").

In accordance with MIFIDPRU 8.6.2 the Firm makes the following qualitative remuneration disclosures:

- The Firm’s remuneration policies and practices are reviewed annually to ensure they are appropriate and proportionate to the nature, scale and complexity of the risks inherent in the business model and the activities of the firm.
- The Partnership Board, as the Remuneration Committee, is directly responsible for the overall remuneration policy.
- The Firm ensures that its remuneration structure promotes effective risk management and balances the fixed and variable remuneration components for all Staff.
- Variable remuneration is adjusted in line with capital and liquidity requirements as well as the firm’s performance.

Prusik does not benefit from exceptional government intervention.

Prusik’s Remuneration Policy sets out the criteria for setting fixed and variable remuneration. All remuneration paid to staff members is clearly categories as either fixed or variable remuneration.

Fixed remuneration is based upon a staff member’s professional experience and organisational responsibility. It is permanent, pre-determined, non-discretionary, non-revocable and not dependent on performance.

Variable remuneration is based upon staff members performance or, in exceptional cases, other conditions.

Performance reflects the long-term performance of the staff member as well as performance in excess of the staff member’s job description and terms of employment, and

- includes discretionary pension benefits; and
- includes carried interest, as referred to in SYSC 19G.1.27R.

Total remuneration is based on balancing both financial and non-financial indicators together with the performance of the Firm and the staff member’s business unit.

The Firm ensures that fixed and variable components of the total remuneration are appropriately balanced; and the fixed component represents a sufficiently high proportion of the total remuneration to enable the operation of a fully flexible policy on variable remuneration.

The Firm monitors fixed to variable compensation to ensure SYSC 19G is adhered to with respect to Total Remuneration.
